

Assignment 4 Video and Effect Size

by [Daniel Szafir](#) - Thursday, April 27, 2017, 10:31 AM

All,

I was still getting some questions about what the DVs should be in Assignment 4 - these should be your scales constructed from your data in Assignment 3. I've made a [Scale Tutorial](#) video on this that will hopefully help with some of the confusion. Please excuse the watermark - I'm testing this out as a potentially helpful example for students.

Also, I realized I forgot to go over effect size in class yesterday. As a result, I won't make effect size reporting mandatory in either Assignment 4 or the final project report. However, please do review slides 38 - 43 in the Lecture 21 slides I just posted and chat with me if you have more questions on effect size.

Dan
