

# Final Individual Report

## Due:

Tuesday May 9th at 4:00pm.

Submit a report to this assignment that addresses each of the following:

- Individual Project Reflection
  - What was your main contribution to your group project?
  - Download and fill out the [Peer Assessment Rubric](#). In addition, please also write a few sentences about each of your team members (what was their contribution, how did they help the team, etc.). One way to think about this is how would you recommend your team members for a job.
  - What was your favorite class project BESIDES your own?
- Course Reflection
  - What did you most enjoy in this class?
  - What did you least enjoy in this class?
  - Were there any additional topics you would have liked to learn more about?
  - What are ways you think I could improve the course in the future?
  - In this class, we had six groups with three group members each. Would you have preferred to have fewer groups with a larger group size?
  - In this class, we had reading discussions, reading quizzes, and reading forum posts. Would you have preferred to interact with the readings in a different format? If so, please give me suggestions.
  - Many of the lectures (e.g., the stats lectures) might be amenable to a flipped format (e.g., I could make a video of this lecture, which students would have to watch as homework, opening up class time for additional group work, discussion, or other activities). Would you prefer this format? Why or why not?

This report can be in any format you wish.

Edit 5/3/2017: If you'd like to give me anonymous feedback on the course, please fill out the FCQ form here: <https://goo.gl/forms/vKYaF71xUa3452782>
